

ALCOHOL & DRUGS POLICY

Being under the influence of alcohol or drugs can seriously impair an individual's judgement and reactions leading to an increased risk of accidents and injuries occurring.

The aim of this policy is to ensure the safety of all employees, customers, and visitors by having clear rules in place regarding use and possession of alcohol and drugs, and to support those who have reported a problem with alcohol or drug dependence.

For the purpose of the policy, alcohol dependence is defined as:

"The habitual drinking of intoxicating liquor by an employee, whereby the employee's ability to perform his/her duties is impaired or his/her attendance at work is interfered with, or he/she endangers the safety of others".

Drug dependence is defined as:

"The habitual taking of drugs by an employee other than drugs prescribed as medication, whereby the employee's ability to perform his/her duties is impaired, or his/her attendance at work is interfered with, or he/she endangers the safety of others".

The Policy

This policy is designed to comply with relevant legislation such as the Health and Safety at Work Act 1974 and the Misuse of Drugs Regulations 2001.

All employees will be treated consistently and fairly in line with this policy.

The Company's policy is that during working hours and always whilst on work premises employees must be free from the influence of drugs or alcohol. This will help to ensure the health and safety of employees and others with whom they come into contact, to maintain the efficient and effective operation of the business, and to ensure customers receive the service they require.

For those reasons, the following rules apply to everyone and will be strictly enforced;

No employee will;

- Report or try to report for work when unfit* due to alcohol or drugs (whether illegal or not) or to substance abuse
- Be in possession of alcohol or illegal drugs** in the workplace
- Supply others with illegal drugs** in the workplace
- Supply others with alcohol in the workplace
- Consume alcohol or illegal drugs or abuse any substance whilst at work

*Whether an employee is fit for work is a matter for the reasonable opinion of the management team.

****Illegal drugs include but are not limited to heroin, cannabis/marijuana, cocaine, ecstasy and amphetamines.**

In addition, employees must;

- Disclose an illness related to alcohol or drugs at the earliest opportunity to ensure support and help with treatment
- Ensure they are aware of the side effects of any prescription drugs
- Advise their site supervisor/contracts engineer or a member of the management team immediately of any side effects of prescription drugs, which may affect work performance or the health and safety of themselves or others. For example, drowsiness

Contravention of these rules is gross misconduct and the Company will take disciplinary action for any breach of these rules, which may include dismissal. Poor performance or problems with attendance in relation to alcohol and drugs, will be dealt with in line with the disciplinary policy. In the case of agency workers or contractors, services may be terminated immediately upon a breach of these rules.

Should there be reasonable belief that an individual is under the influence of alcohol or drugs on reporting for work, or during work, (for example if there was a strong smell of alcohol on the person's breath), they must be sent home immediately. A search may also be carried out. In addition, possession of or dealing in illegal drugs on Company premises will, without exception, be reported to the Police.

Help and support

Any employee who seeks the assistance of the Company in finding treatment for a drugs or alcohol problem has the Company's complete assurance of confidentiality.

Anyone who admits to having a problem with alcohol or drugs shall be fully supported by the management team.

The Company will endeavour to ensure that advice and help are made available to any employee who feels they have a problem with alcohol or drug misuse. In the first instance, individuals will be encouraged to seek help from their General Practitioner.

Under these circumstances and with the employee's consent, a referral will be made to the Occupational Health service. It may occasionally be necessary to request that the employee refrains from work temporarily, or undertakes restricted duties to ensure their own safety and that of others.

The Company may also allow additional time off (normally unpaid) for employees to obtain treatment or attend support groups.
